

## EQUIPMENT CLOSETS

# CHINOOK H LITE

## DESCRIPTION

The Chinook H LITE is a great value in equipment closet evacuators. It is designed to exhaust into an adjacent space. Properly installed the Chinook H LITE provides quiet cooling of your equipment closet in concert with the existing HVAC system. The always-on design makes the Chinook H LITE an economical choice. An airflow of 200 cfm was rated fully assembled and under typical working conditions.
