

ZEPHYR II

RACK MOUNT GEAR

DESCRIPTION

The Zephyr II pulls air out of medium sized rack systems. Using offset fans, vibration isolation, and super quiet, always-on fan cores provide 100 cfm at 15 dB. This 2U fan has the lowest noise rating in its class.

FEATURES

- 2U equipment enclosure
- Vibration isolators on fan cores to reduce noise
- Triggered via a contact switch or optional thermal switch
- Status output for control system monitoring
- Always-on design for constant air circulation

SPECIFICATIONS

- Airflow: 100 cfm
- Noise: 15 dB
- Power Supply: 12v DC
- Dimensions: 3.49" h x 19.00" w x 2.52" d
- Power Consumption: 5.8 W
